activities

MCCS - Member

Sep 2013 - May 2017 / Poughkeepsie, NY

Work in labs that focus on Linux development. Attend presentations from professionals in the computer science field.

experience

AMC Networks - Front-End Developer

June 2017 - Present / New York, NY

Currently working on the development of the Shudder Blog using wordpress as an api and Node JS as well as the restructuring of Shudder and Sundance Now video collections. I am also responsible for development and QA of our HTML5 living-room apps working with a team of overseas developers.

MLBAM - Data Analyst Intern

May 2015 - August 2016 / New York, NY

Data mapping for MLB Shop categories. Collected data from all 30 teams for the annual Club IT Survey in order to show clubs where there staffing budget was being used as compared to other clubs and what it meant for their front office.

volunteering

HOBY - Facilitator

June 2018 - Present / New Haven, CT

Run learning & leadership exercises for high school students. Encourage group interaction on seminar topics and proper courtesy to speakers.

Marist in the DR - Teacher

June 2015 / Cabarete, Dominican Republic

Provided coding education high-school students. Increased the school's usage of technology in the classroom. Developed an exciting curriculum that is still used by the school and volunteers.
